

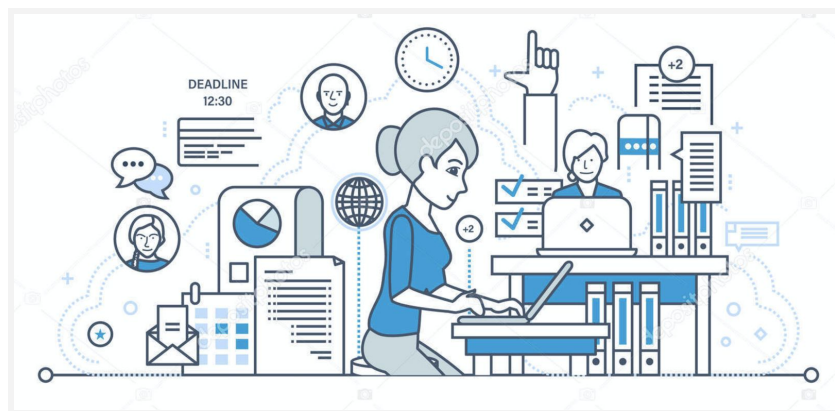

Graphic Design

#1 Illustration

You are creating graphics for a site. There is a section telling about the benefits of working at home. A linear illustration is now used on the site to show these benefits, the client would like to change the style though. Illustrate the benefits of working at home using the stylistics provided by the client.

Current illustration

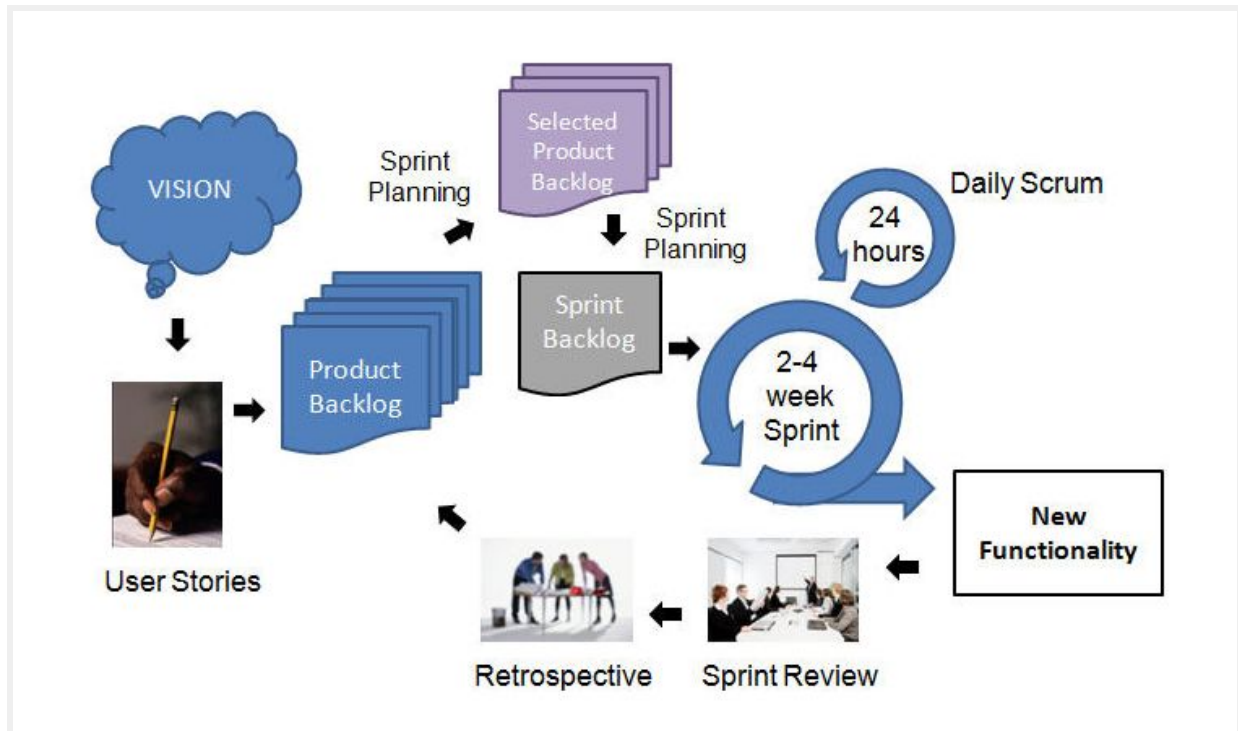

Stylistics provided by the client

Result — picture 1280x720.

#2 Scrum

Below you can see a graphic display of Scrum methodology. This scheme is used in the presentation and explains the process of creating typical company projects. Think of an alternative variant of scheme representation. If necessary, support your concept with the text description.

Scheme

Result — picture 1280x720.

#3 Simple

The client's corporate slogan is "Keep it short and simple".

Think of a metaphor, an image or an illustration to represent this slogan.

The client would like to take a look at several options. If necessary, support your concepts with some text description.

Slogan
